MikroTik RouterOS Tools

MUM Cambodia, Phnom Penh, April 24, 2017 | Chan Ty

1

About Me

- Name: Chan Ty
- Experience: Routing, Switching and QoS
- Certified to deliver: MTCNA, MTCRE, MTCINE and MTCTCE

Agenda

- I am going to present some usual tools that is available in RouterOS
- Most of them are under Tools menu

IP Scan

- IP Scan tool allows user to scan network based on some network prefix or by setting interface to listen to
- Either way tool collects data from the network

IP Scan (Running)						×		
Interface: e	ther1			₹ ▲	Start			
Address Range: Stop								
				ĺ	Close	7		
					New Window			
0ddrocc (MAC Address	Time (mc)	DMS	SNMD	Nethios			
192 168 86 1	5C+26+04+E2+E8+74	nine (ins) 6		Diate	Nectios			
192.168.86.3	00:80:45:4B:96:19	5						
192.168.86.4	00:80:45:4B:75:F5	4						
192.168.86.10	00:02:D1:33:93:4D	22						
192.168.86.17	00:02:D1:23:18:23	17						
192.168.86.18	00:02:D1:23:18:18	17						
192.168.86.19	00:02:D1:4C:2F:26	17						
192.168.86.20	00:02:D1:33:93:63	9						
192.168.86.24	08:00:37:75:0D:8E	17		DELL750D8E				
192.168.86.40	00:30:6E:FD:FE:AF	7		NPIFDFEAF				
192.168.86.41	00:04:A3:FF:2F:63	351						

Tools \rightarrow IP Scan

E-mail

- Allows to send e-mails from the router
- For example to send router backup

Email Settings							
Server:	smtp.gmail.com	ОК					
Port:	587	Cancel					
Start TLS:	yes 🔻	Apply					
From:	me@gmail.com	Send Email					
User:	me@gmail.com 🔺						
Password:	*****						

Tools
$$\rightarrow$$
 Email

/export file=export
/tool e-mail send to=you@gmail.com\
 subject="\$[/system identity get name] export"\
 body="\$[/system clock get date]\
 configuration file" file=export.rsc

A script to make an export file and send it via e-mail

Traffic Monitor

 Traffic Monitor tool is used to execute console script when interface traffic crosses a given threshold

Traffic	Monitor List						×
+	- 🖉 🛛	: 🖻 🏹	7			Find	
Name	ıI∆ e	nterface	Traffic	Trigger	Threshol.	On Event	-
	New Traffic	Monitor

Traffic Generator

- Traffic Generator is a tool that allows to evaluate performance of DUT (Device Under Test)
- Tool can generate and send RAW packets over specific port

Traffic Generator Settings		
Test ID:	3	
Latency Distribution Max.:	100 us	ОК
Stats Samples To Keep:	100	Cancel
Latency Distribution Samples:	64	Apply
Latency Distribution Measure Interval:	0-320ns	Quick Start
		Start
		Stop
		Inject Pcap
		Stats
		Ports
		Packet Templates
		Raw Packet Templates
		Streams
Running: no		

Tools → Traffic Generator

Traffic Generator

Traffic Generator Configuration

/tool traffic-generator packet-template
add header-stack=mac,ip,upd ip-dst=20.0.0.2 ip-gateway=10.0.0.1 name=t1
add header-stack=mac,ip,upd ip-dst=10.0.0.2 ip-gateway=20.0.0.1 name=t2

A script to make an TI and T2 packet template

Interface Traffic Monitor

- Real time traffic status
- Available for each interface in traffic tab
- Can also be accessed from both WebFig and command line interface

Interfaces \rightarrow wlan I \rightarrow Traffic

- RouterOS can generate graphs showing how much traffic has passed through an interface or a queue
- Can show CPU, memory and disk usage
- For each metric there are 4 graphs daily, weekly, monthly and yearly

Interface Rules Queue Rules Resource Rules Interface Graphs Queue Graphs Resource Graphs ♣ Y Graphing Settings Find Allow Address Interface Store on Disk Ŧ New Interface Graphing Rule Set specific Ŧ Interface: all OK. interface to Allow Address: 192.168.199.200 Cancel Store on Disk Apply monitor or leave Resource Graphing Rule Copy all, set IP address/ Allow Address: 192,168,199,200 OK. Remove Store on Disk subnet which will Cancel New Queue Graphing Rule Apply be able to access Ŧ Simple Queue: all OK. Copy Allow Address: 192.168.199.200 Cancel the graphs Remove Store on Disk Apply. Allow Target Сору Remove

The Dude

- Application by MikroTik which can dramatically improve the way you manage your network environment
- Automatic discovery and layout map of devices
- Monitoring of services and alerting
- Free of charge

The Dude

- Support SNMP, ICMP, DNS and TCP monitoring
- Server part run on RouterOS (CCR, CHR, or x86)
- Client on Windows (works on Linux and OS X using Wine)

The Dude

MUM Cambodia, Phnom Penh, April 24, 2017 | Chan Ty

Torch

- Real-time monitoring tool
- Can be used to monitor the traffic flow through the interface
- Can monitor traffic classified by IP protocol name, source/destination address (IPv4/IPv6), port number

Torch
