

MIKROTIK 60GHz NEWS

ANTONS BELAJEVS (MIKROTIK)

07 MARCH 2019

60GHz 802.11ad

- Unlicensed band
- High attenuation helps avoiding radio interference
- To get higher gain very narrow radiation patterns are used
- Physically smaller antennas can provide high gain

60GHz 802.11AD

COMPARSION WITH OTHER AVAILABLE STANDARDS

- The highest wireless throughput compared to any MikroTik wireless device at the moment:

Band	TX	RX	TX+RX
2.4GHz dual chain	256Mbps	256Mbps	252Mbps
5GHz dual chain	560Mbps	561Mbps	570Mbps
60GHz single chain	1Gbps*	1Gbps*	2Gbps*

* Limited by Gigabit Ethernet interface

COMPARSION WITH OTHER AVAILABLE STANDARDS

Throughput (<0,1% loss)	Theoretical max		16 Streams both ways			4096 Streams both ways		
Frame size (bytes)	kpps	Mbps	kpps	Mbps	%	kpps	Mbps	%
64	2976,1	1 523,8	2022	1 035,3	67,94	1977	1 012,2	66,43
128	1689,2	1 729,7	1496,2	1 532,1	88,57	1612	1 650,7	95,43
192	1179,2	1 811,3	1173	1 801,7	99,47	1173	1 801,7	99,47

Figure 2: Throughput test report

COMPARSION WITH OTHER AVAILABLE STANDARDS

60GHz DEVICES

WIRELESS WIRE

Wireless Wire:

- Pre-configured 60 GHz radio link (Plug and Play)
- 4 core CPU running at 716 MHz, 256 MB of RAM
- Only 5 W of maximum power consumption 802.11af/at
- Range of 200 meters or more
- Beamforming and PtMP support
- Channel bandwidth 2.16 GHz

Wireless Wire:

- Supports 5 frequency channels
- Total EIRP under 40 dBm
- 32 antenna elements
- Can be also used as CPEs in PtMP setups
- Price \$198 for kit of two devices

WIRELESS WIRE DISH

Wireless Wire Dish:

- Recommended for distances up to 1500m+
- Antenna gain 42 dBi
- Total EIRP under 55dBm
- Can be used as CPEs in PtMP
- Price \$298 for kit

SXTsqLite60:

- Low cost unit
- Fast Ethernet
- Range of 200 meters or more
- Slim design
- Designed as short range CPE in PtMP setups or PtP device
- Price \$69

LHG Lite60:

- Low cost unit
- Fast Ethernet
- Works in the same distances as LHG60G (1500m+)
- Designed as long range CPE in PtMP setups
- Price 99\$

WAP 60G AP

wAP 60G AP:

- Same hardware as used in Wireless Wire kit
- Access Point device for 8 clients
- 60 degree field of view
- Price \$129

WAP 60Gx3 AP

wAP 60Gx3 AP:

- Multiple antenna elements provide wider field of view
- Access Point device for 8 clients
- 180 degree field of view
- Price \$199

Point to Multi Point use:

- All our devices are mutually compatible
- License level 4 or higher required for PtMP access point
 - ▶ PtMP license is included in **wAP60G AP** and **wAP60G X3** devices
 - ▶ License can be upgraded on existing devices
- Multiple channels allows multiple devices to be mounded in same location
- 8 clients are supported per each Access Point

Expected distances in PtMP mode with wAP6oG or wAP6oG X3 as Access Points:

CPE	Distance
wAP6oG	up to 200m
SXTsq	up to 200m
LHG6oLite	up to 800m
LHG6oG	up to 800m

Few recomendations:

- Update to latest RouterOS releases
- Used sector information available under: `/interface w60g monitor wlan60-1`
- Align mode: `/interface w60g align wlan60-1`
- After aligning - test throughput:
 - ▶ Traffic generator
 - ▶ Bandwidth Test (now supports multicore tests)
 - ▶ Speed-test: `/tool speed-test address=...`

ALIGNMENT LEDs

FREQUENCY SELECTION

- All devices has 5 available frequency channels
- Much higher distances can be achived at 64800MHz and 66000MHz channels

THANK YOU FOR YOUR ATTENTION
